

Would this person be a candidate for an implantable hearing solution?

Come and find out at our seminar:

Bridging the Gap: Hearing Aids and Implantable Technology – A Continuum of Care

ASA endorsed.
Approved for 4 CPD points.

Hear now. And always

The lines between implantable hearing solutions and hearing aid candidacy are becoming increasingly blurred. Join us at this interesting seminar, which will provide an update on the latest global thinking on candidacy guidelines for implantable hearing solutions, and discuss working together to improve the quality of life for patients with hearing loss.

Topics of discussion include:

- Solutions for patients where hearing aids are inadequate
- Patient outcomes with Cochlear™ implant and Baha® technology
- The referral process and providing a continuum of care
- Differentiating your practice as a complete hearing solutions provider

Following the presentation there will be a reception where we invite you to talk to:

- A cochlear implant recipient to understand their personal experience.
- Dr Rob Morrissey and Dr Paul Varley; the presenters and experienced cochlear implant surgeons.
- Implant audiologists who will share their knowledge and expertise.

Light canapés and beverages will be served.

There is no cost to attend, but space is limited. Please register early.
